## Applying for the STANYS Champion of Teacher Development Award

To qualify for this award, the Champion of Professional Development form and a current resume must be submitted with the following:

### I. Philosophy of your role in science education and professional development.

Provide a personal essay that describes your vision of what constitutes excellence in science teaching and learning. Include how you have facilitated that with teachers.

### II. Supporting documentation of your role as an administrator supporting science educations and professional development.

Include letters of support that directly indicate how the nominee supports teachers in the improvement of science education. Include specific accomplishments that have supported professional development.

### III. Evidence that demonstrates your role in professional development at the building and/or district level.

Provide evidence to demonstrate your success in professional learning of science teachers. Evidence could include, but is not limited to, activities such as: workshops you developed for your staff, videos, publications, grants the support science education and professional development, and newspaper articles.

### IV. Professional Involvement

Describe professional activities in which you have been involved in the past three years. Activities could include, but are not limited to:

- Memberships in professional organizations
- Offices held in professional organizations
- Conferences attended and/or planned
- Awards/Honors
- Grants
- Published materials

#### Scoring Guide

Points		
2	Philosophy	Does it reflect the mission of STANYS?
4	Support	Letters of support
5	Evidence	Evidence that demonstrates your success in promoting professional learning of teachers
3	Professional	Evidence of administrator as a learner and leader in the science teaching field.

14 = Total number of points.
